Measuring value in healthcare

from a patients' perspective

[Ane Fullaondo Zabala](#)

Bachelor's degree in Biology and PhD in Genetics and Molecular Biology. She obtained a Masters in research methods and evaluation of health services health economics of the National Distance Education University and the certificate of Specialization in Leadership and Transformation in Organizations and Health Systems from Deusto Business School.

She obtained several degrees: on Efficiency in the production of health services, on Application of LEAN methodology to improve care pathways,

the Course on Leadership and Organizing for Change of the Institute for Healthcare Improvement, on Advanced Epidemiology of the Public Health School of Andalucía (Spain). She is the scientific coordinator of Kronikgune Institute (Basque Country-Spain).

[Candan Kendir](#)

Candan KENDIR is a Health Policy Analyst at the OECD working for the PaRIS (Patient Reported Indicator Surveys) initiative. As part of the initiative, Candan co-leads the working groups on Breast Cancer PROMs and Hip and Knee Replacement PROMs. She also works on the development of the PaRIS survey- an international survey of PROMs and PREMs of people living with chronic conditions who are managed in primary care. Candan is also involved in the Integrated Care and the Cancer Inequalities works of the organisation. As a family doctor by training, Candan devotes her time to improving health system performances across countries.

[Katherine de Bienassis](#)

Katherine (Kate) de Bienassis is a Health Policy Analyst at the OECD, where she contributes to the Patient-Reported Indicator Surveys (PaRIS) project and work on health care quality and outcomes measurement. Prior to joining the OECD, Kate worked as a Senior Project Manager at the National Quality Forum (a U.S. based NGO), where her work focused on the evaluation and endorsement of healthcare quality and outcome measures for use in hospital settings, readmissions, cancer care,

paediatrics, and cost and efficiency.

Kate previously held positions with the Patient-Centered Outcomes Research Institute (a U.S. based research funding organization) and the Center for Global Development's Global Health Team (a Washington, D.C. based think tank). Kate holds her MPH from Dartmouth College.
